ITA1412 – ETHICAL HACKING

EXPERIMENT NO. 8

Experiment Name

Wireshark Sniffer for Network Traffic and Analysis

Aim

To capture and analyze network packets using Wireshark, following the lab manual's procedure.

Commands

This experiment primarily uses Wireshark's graphical interface; no terminal command is specified in the manual.

Command / Flag	Purpose	Example / Command
Capture	Select the network interface	Wireshark → Capture → Interfaces
Display filter	Filter HTTP traffic as written in the manual	http

Procedure

Step 1: Install and open Wireshark.

Step 2: Open Capture → Interfaces and select the Wi-Fi interface.

Step 3: Observe packet source, destination, and protocol fields.

Step 4: Stop the capture when finished and inspect packets using appropriate display filters.
